## **Have Your Say!**

### **Local Water Done Well Consultation**

**Local Water Done Well consultation** - is the Government's plan to address New Zealand's water infrastructure challenges by enabling better water services and financially sustainability.

The community is are invited to consider the merits of two model options:

a Wairarapa-Tararua water services delivery joint arrangement involving Masterton, Carterton, South Wairarapa, and Tararua district councils using a water services Council Controlled Organisation (CCO) model.

an existing approach, which is a non-asset owning CCO (like Wellington Water Limited) delivering against new government requirements.

**Be sure to share your input by this **Sunday 6th April****

## **Have Your Say South Wairarapa**

### Why Your Input Matters

This decision affects everyone – households, businesses, and the whole Wairarapa community.

Council really want to hear from YOU before making this call.

### South Wairarapa District Council LTP 2025-34

The 2025/34 Long-Term Plan - the next nine years, outlining SWDC services, how they maintain our infrastructure, budgets (including rates) and projects to make the district an even better place to live.

This plan asks six questions across three topics:

Alternate ways to distribute rates

Operating our water network

Prioritizing our roading improvements

To inform your decision making process you can calculate what your own rates will be for the 2025/26 year on our website here:  
<https://swdc.govt.nz/rates-estimator/>
